Crime in London, as in various cities, is very hard to measure. Police figures generally understate crime substantially and can be extremely misleading. Accordingly, recorded crime statistics need to be treated with great caution and have sometimes been shown to show opposite trends to victim surveys or to violence as measured by hospital intake. ...

Asking prices in Greater London have fallen year-on-year for the 20th month in a row as political turmoil continues to grip the capital's housing market. This record spell dwarfs the previous run of negative annual asking price growth which lasted for 14 months from the start of June in 2008 to the end of July 2009, which was caused by the global banking collapse and the
