Both "graffiti" and its occasional singular form "graffito" are from the Italian word graffiato ("scratched"). "Graffiti" is applied in art history to works of art produced by scratching a design into a surface. A related term is "sgraffito", which involves scratching through one layer of pigment to reveal another beneath it. This technique was primarily used by potters who would glaze their ...

Urban art combines street art and graffiti and is often used to summarize all visual art forms arising in urban areas, being inspired by urban architecture or present urban lifestyle. Because the urban arts are characterized by existing in the public space, they are often viewed as vandalism and destruction of private property.. Although urban art started at the neighborhood level, where a lot ...

Coming from the context of urban spaces, street art now lives in the cultural spaces of galleries, virtual communities, public discourses and recently it has become an object of appropriation by the popular culture and the mainstream symbolism of contemporaneity. Art pieces which have come to existence on the walls of cities reached the highest peaks of the contemporary art market.

Un graffiti est une inscription ou une peinture réalisée sur des murs, des monuments ou des objets parfois situés sur l'espace public. Les graffitis existent depuis des époques reculées, dont certains exemples remontent à la Grèce antique ainsi qu'à l'Empire romain [1] et peut aller de simples marques de griffures à des peintures de murs élaborées.
