Before. To support effective parenting, we need to help families dealing with problems like poverty and ill health. It is very hard for parents to give their children a good start in life when they are experiencing hardship and adversity.

Navigating Waters - Talking about parenting

On December 9th, 1968, a research project funded by the US Department of Defense launched a revolution. The focus was not a Cold War adversary or even a resource rich banana republic, but rather to "augment human intellect" and the man driving it was not a general, but a mild mannered engineer named Douglas Engelbart. His presentation that day, which would be so consequential that it is now ...

To help evaluate Terragraph as a solution for high speed fixed broadband connectivity, Deutsche Telekom and its subsidiary Magyar Telekom conducted trials in Mikebuda, Hungary.

terragraph | Solving The Urban Bandwidth Challenge

Play is essential to development because it contributes to the cognitive, physical, social, and emotional well-being of children and youth. Play also offers an ideal opportunity for parents to engage fully with their children. Despite the benefits derived from play for both children and parents, time for free play has been markedly reduced for some children.

The Importance of Play in Promoting Healthy Child ...

For healthy development, children need life to be on an even keel. But for families experiencing poverty and stress, raising children is like sailing in rough waters.
