According to my Bentleys for N/A cars, the 80 Amp white fuse next to the purple fuse in the picture is for the power steering. After the fuse is checked and if the fuse isn't the problem, the car should be scanned for fault codes. There is a module and a sensor near the steering wheel as well as a couple of sensors and a controller in the rack.

Fuse & Relay Panel. The Bentley Service Manual has numerous errors in its list for relays and fuses. Most of those errors have been corrected here! However, it's wise to verify your relays using the relay part numbers listed below, especially for the 1980-1982 cars. The fuse/relay panel is located under the dash, driver's side, behind the kneebar.
